WHEN APPROVED THIS IS YOUR PERMIT Based on 2003 “I” Codes
APPROVED PLANS AND PERMIT MUST BE ON THE SITE FOR ALL INSPECTIONS.

This permit becomes null and void if work is not completed within 180 days, or if construction work is suspended or abandoned for a period of 180 days at anytime after work has commenced. Construction needs to be substantially complete within one (1) year from issue date of permit, at which time a one 180-days-extension can be granted by the building official.

The US Environmental Protection Agency requires that renovation, repair, and painting projects that disturb
lead-based paint in pre-1978 homes, childcare facilities and schools must be performed by an EPA Certified Renovator working for an EPA Certified Firm and specific work practices must be implemented to prevent lead contamination. More information is available at 1-800-424-LEAD (5323) or http://www2.epa.gov/lead.

I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of the law and ordinances governing this type of work will be complied with whether specified herein or not. The granting of this permit or approval of plans does not presume to give authority to violate or cancel the provisions of any other state of local law regulating construction or performance of construction. All changes from approved plans must be submitted and approved prior to start of that change.
